Thanks Dee. Try Betsy Varcoe or Jim Lippincott on the letter.

Bert Garcia

Subject: U&O FIP - Items in play while Darcy is on Travel this week

Hi Bert,

As I mentioned in my voice mail, thanks for the email and here is an update on the U&O FIP item.

I left a voice mail for my OP contact yesterday, late afternoon. He called back this morning and recommended that I send an email to Bruce Schillo (technical contact in OP currently reviewing the FIP). I sent an email to Bruce this morning requesting a call to further discuss their cost comments with the region and the OAQPS contact we worked with on the cost analysis.

I am also interested in tracking down the letter from Governor Herbert. I heard from OP this morning that they were instructed by OAR to hold off on moving the FIP forward due to the letter. Do you know where I could find a copy of the letter?

Let me know if you have any questions. Thanks, Dee

Folks, this is so you'll see the communication between the 9th floor, Darcy and me on items you're managing. Since Darcy is out this week, keep me updated so that I can support you, fill in for her, and work with you to keep Shaun, Deb, and Joan informed. Thanks.

Shaun, Deb and Joan – I'll be traveling to DC tomorrow, returning Friday late afternoon. Bert and I have talked about the issues in play this week and he will be your main point of contact while I'm out of the office. I will be available by phone after 3 pm Denver time Tues – Thurs, and prior to 12:30 pm on Friday if you need to get ahold of me directly. I wanted to leave you updates on some of the items we discussed in SLT and after:

- Paula, Rich and Monica will be working with Nancy Grantham and others on the communication plan for UT RH. Rich is setting up the call as soon as possible and I've

asked Monica to see who in the Air Program can work with Rich on updating the communication strategy we did for the proposal this week while her technical leads continue work on the notice and response to comments.

- I spoke with Paula about the PAD call on the PFOA/PFOS roll out. Nationally they are asking for some details on questions/concerns state may raise with the new advisories. I provided her some additional information on potential issues from Colorado, and Bert also copied Paula on the Hot Issue regarding concerns that at least two systems in Colorado may not be able to meet the new health advisories. Paula's team has worked closely with our folks throughout this process so we are in a good position to provide HQ with any information they need for the initial media inquiries we may receive this week. Bert and Sarah will keep you updated on any new information we get from CDPHE after the Wednesday call.

- ORC will be providing me some additional information on the status of comments on the proposed legislation related to Aquifer Exemptions. I will review and provide you an email update as soon as possible after I receive the information.

Ex. 5 - Deliberative Process

- This afternoon I received an updated NDIC Class II oversight report which I understand incorporates the comments Shaun and Joan provided in the briefing we had with you a couple of weeks ago. I'll be reviewing that this week. We still do not have comments from OGWDW. Once we have those and have them incorporated into the report we will provide you an update report.

Let Bert or I know if you have any questions.

Thanks!
D
